

Establishment and upgrade of the identification and registration process of mixed migration in North Macedonia in view of a connection to EU information systems**Duration:** 25.11.2024 - 24.11.2028**Countries:**
North Macedonia**EU contribution:** € 10 000 000**Total budget:** € 10 000 000**Implementer:**
INTERNATIONAL ORGANIZATION FOR MIGRATION**Website(s):** north-macedonia.iom.int/projects**Project description:**

Through the EU-funded project 'Establishment and Upgrade of the Identification and Registration Process of Mixed Migration in North Macedonia', the European Union (EU) is supporting North Macedonia in its efforts to enhance its border security. This initiative focuses on strengthening border management infrastructure and human rights protection in accordance with EU standards. The project is being implemented by the International Organisation for Migration (IOM) in close cooperation with the Ministry of Interior of North Macedonia.

The project represents a significant step forward in managing migration and enhancing border security in North Macedonia. With the support of the EU, North Macedonia is poised to upgrade its IT and communication infrastructure to support the identification and registration process of mixed migration flows aligned with European standards. This initiative not only addresses immediate challenges but also lays the foundation for efficient border and migration management and the protection of individuals' rights.

Expected results:

- Enhanced overall safety in North Macedonia by improving the security landscape of the country by fortifying border management.
- Increased security and human rights protection by establishing an EU-compliant identification and registration system to accurately identify individuals, reduce the risk of migrant smuggling, and enhance the safety of both migrants and the local population.
- Strengthened access to protection for vulnerable people by ensuring that vulnerable individuals on the move have better access to protection mechanisms.
- Build capacities of the border police by providing training to border police to ensure they are sensitive to protection and human rights issues.
